#### Dangerous Practice.

Several complaints have some into this office of late relative to the certain native and Chinese boys who have started the practice of learning how to ride a bicycle on King street near the corner of Alakea. Carriages passing that way are forced to turn far out in order to avoid being run into by the certain native and Chinese order to avoid being run into by the novices at bicycle riding.

There is also a deaf and dumb

native boy who is one of the lead-ing spirits in the crowd that hange about the place. He rides very well but he persists in his attemp's to imitate "Trilby" who was here sometime ago. The fact that he cannot hear places him on a par with the novices.
